Edmonton, Alberta,
July 1, 1967.

In this, Canada's centennial year, it is particularly appropriate to take stock of the economic progress of the nation. It is a good time also to review the economic progress of our province. From almost sole dependency upon agriculture, the province has now developed a more diversified, and hence more stable economic base.

Since the Leduc oil discovery, Alberta's manufacturing industry has expanded dramatically. From $300 million in 1947, gross manufacturing production has increased five-fold to $1.5 billion. Equally encouraging is the much broader range of goods now produced.

This 1967 edition of the Alberta Trade Index has been compiled to provide information on Alberta manufacturers and their products. We hope to accomplish two things with this publication; promotion of the sale of Alberta-made goods, and the encouragement of new industries.

You are invited to take advantage of the many industrial development services offered by my Department.

SECTION 1. ALBERTA MANUFACTURING FIRMS 1

In this section the manufacturing firms of the province are listed. Types of products are given, and approximate size of firm indicated by a simple letter code.

New firms which began operations subsequent to preparation of original lists are shown in an addenda on page 56

SECTION 2. ALBERTA MADE PRODUCTS 57

Products of manufacturing plants and the names and addresses of the firms producing the specific product are listed alphabetically. Actual postal address can be obtained by referring to Section 1.

SECTION 3. IMPORTS: CLEARANCES AT ALBERTA CUSTOMS' PORTS - 1964 151

Total value of goods cleared at Alberta customs' stations in 1964 was $241, 727, 512. On the assumption that many of these products might be manufactured in Alberta a selected sample list, showing quantity and value, is presented to interest potential manufacturers. The list does NOT include quantity and value of products manufactured or brought in from other parts of Canada. Complete lists of products cleared at customs' ports are available on request.

SECTION 4. NATURAL GAS PROCESSING PLANTS 161

COAL MINES 165

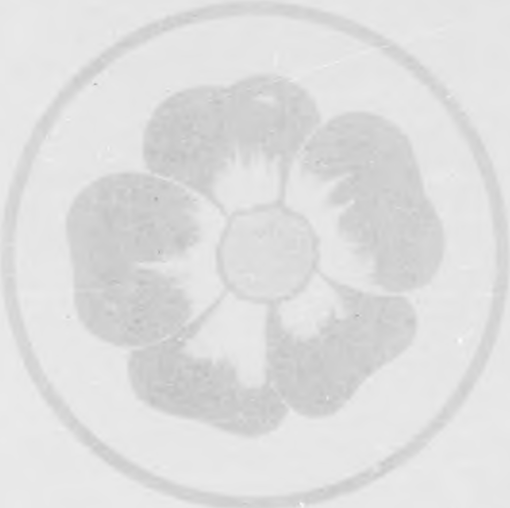
QUARRIES 167

SECTION 5. TIMBER LESSEES, LICENSEES AND PERMITTEES 169

SECTION 6. PUBLICATIONS 179

RADIO STATIONS 181

TELEVISION STATIONS 182



Many of the Alberta firms listed in this Trade Index label their products with the Alberta floral emblem, emphasizing the fact that they are Alberta made.

Albertans benefit by patronizing Alberta manufacturers and buying Alberta made products. Buying Alberta made goods helps to increase local employment, encourages industrialization and produces a sounder economy.

Support Alberta Industry by purchasing Alberta made products.
